Advertise in the Pacific Northwest Grain & Feed Association 2025 Annual Directory

Why Advertise?

In 1948, the PNWGFA (formerly known as the Pacific Grain Dealers Association) published the first official directory of grain, feed, milling and seed companies operating in the states of Idaho, Montana, Oregon and Washington.

The annual directory has grown into a 200+ page publication providing the most comprehensive over-arching directory in the region. The directory lists 1,000+ member and non-member companies handling grain, feed, seed processing and allied industry suppliers in the Association’s four state region and beyond.

The PNWGFA Directory provides your industry peers with the necessary contacts, addresses, phone/fax numbers, as well as website and email contact information. This all helps to enhance your business in the Pacific Northwest.

Our Directory includes a printed Buyer’s Guide section allowing you to promote your products, services, specialties and employees by listing your company’s information under the appropriate reference headings. All members and advertisers are entitled to five free listings.

** As PNWGFA continues to improve website and other technologies, we strive to continue improving our directory and will review an online directory presence in the future. We acknowledge and appreciate some members may prefer a printed version while others the convenience of online search options. The Association is dedicated to providing current and pertinent industry information in various forms in the future and appreciates member input (and patience) as we navigate new platforms and options!
